

BROOM BUCKET CB/CBR/CBTI

euroimplementos

Broom bucket

This equipment is ideal for public works and construction, agriculture and cattle raising, gardening and industry. It is not only used for sweeping; it's also very useful for the scattering of materials such as sand, mould, etc.

Made of strong construction and big robustness, it has a patented system for the change of brooms, without clearing the axis. Optionally it's equipped with cutting tool interchangeable with screws.

CHARACTERISTICS

- Manufactured from ST-52 steel. Blade, corner brackets and runners manufactured in special anti-wear steel (Brinell 450).
- Patented system for adjusting broom consumption: the side is completely clear to reduce the minimum distance from the wall.
- Long-lasting polypropylene brooms (more than 210 mm).
- Special anti-abrasion double-meshed hose.
- External crush-proof hose protector.
- Surface treatment of parts susceptible to corrosion.
- Top quality hydraulic engines.

Additional features in the special Broom Buckets for CBR rentals:

- Manufactured in superior widths of ST-52 steel.
- Blade and corner brackets in special dual-purpose anti-wear steel (Brinell 450) affixed to the bucket by screws.
- Hydraulic motor built into the axle.
- Direct transmission to the axle (no chain).
- Anti-collision protection for bearings.

Optional equipment:

Sprinkler system (100 litres), side sweeper/s, detachable dustproof cover, integral dustproof cover, steel brushes, etc.
